NOBILITIA FLORAE CAUCASICAE

curante G. W. RONCHOW.

467. *Aethionema Woronowii* B. Schischkin n. sp.

Sect. *Isoptera* W. Busch.

Glaberrimum, basi suffruticosum, caulibus numerosis virgatis 35-40 cm. altis, tota longitudine alternatis foliosis, apice parce racemosis; foliis elliptico-linearibus, 2,5 cm. longis, 3-5 cm. latis obtusiusculis basi attenuatis sessilibus; racemis terminalibus multifloris subanthesi densis subcapitatis, 3 cm. longiusculis, pedicellis calyceae vix superantibus; sepalis purpureascentibus obtusis 15 mm. longis albomarginatis; petalis roseis apathalatis rotundis calyce duplo longioribus; filamentis majoribus a basi calycis connatis, alia unilaterali ad medium abrupte emarginatis; antheris ellipticis, basi retusis, 7 mm. longis; ovario triplo longiusculo, 4,5 mm. latis unilocularibus monospermis, alia in medio loculo aequilata. Stylo brevi 0,4 cm.

Affinis *Ae. Senari* Boiss. et *Ae. elongato* Boiss., a prioribus caulibus minus racematis, a posterioribus foliis longiusculis ad 2,3-3 cm. longis, nec superius foliosis / nec longissime subcapitatis / nec elongata laxa, a giusculo discedit.

Ab *Ae. Lipskyi* differt floribus roseis / nec albis, siliculis basi et apice emarginatis / nec truncatis / B. Schischkin.

Aethionema Woronowii B. Schischkin. Vallis fl. Araxis inter montes Kaghzman, in clivis lapideis
